McFarland's BURGLAR and FIRE PROOF SAFES!

THE undersigned would respectfully call the attention of the public to the above unequalled safeguard of property—proof against the devouring element of fire as well as the most skilful burglar. To MERCHANTS, JEWELLERS, and BANK DIRECTORS, we would only say examine them and the proofs, and you will be convinced of their superiority over all other manufacture.

Our business is done in a plain, straightforward way, no boast resorting to humbug or large talk.

Below is one of the many testimonials we are daily receiving from all parts of the country, and which speaks for itself. Messrs Pond & Hatch's crock and Oil Store was situated directly under the Pearl-st House and was totally consumed in that great fire of August 23d.

New York, Aug 23 1853

Messrs Wm. McFarland &c.

Gents—It affords us pleasure to inform you that the Fire and Burglar Proof Safe we purchased of you preserved our books and papers, at the disastrous fire of the Pearl st. House last evening, in the most perfect manner. Although it was covered throughout the fire with burning Rosin, and other Oils and directly under a broken gas pipe, in the most intense heat it remained true to its name and its contents when taken out were not even scorched, and hardly blew the smell of fire. To any one who is in want of a superior Safe, a perfect safeguard against fire we cheerfully recommend your manufacture, having had a personal experience of their excellence. Yours truly

B F POND & HITCHCOCK

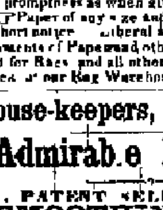
PATENT SELF HEATING
SMOOTHING IRON.



MANY important improvements have been made since the beginning of the present century relieving and facilitating the labor of men by machinery and other modern implements. But female (have) been nearly neglected until the introduction of the Patent Self Heating Smoothing Iron which will relieve them in a very great degree, from the excessive and fatiguing labor of Ironing besides being a great saving of time and expense. This Iron combines economy convenience, saving of labor and despatch, one cents worth of dry charcoal supplies fuel for a whole days' constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' Irons are constructed upon the same principle and possess equal superiority.

Whig and Courier.

John S. Sayward, Editor.

THURSDAY, WED. 9, 1854.

Inauguration of Governor Crosby.

Governor Crosby was inaugurated yesterday and delivered his Message to the Legislature, which is highly spoken of as an able State paper. He recommends a change in the Constitution to admit of election by plurality.

☞ The Augusta Age, in fondness to console its own sorrows at the election of a Whig Governor in Maine, for the second year in succession, an event which has never happened before, very kindly devotes itself in various forms to what it deems the sorrows of other parties, and in these kind offices the Age really makes itself lively, and industriously goes about preaching funeral discourses over all sects of company, the living as well as the dead, and lovingly brings together all in a common grave, burying its friends and its enemies with the same emotions, happy and even jolly in the prospect of a political lehaus. We commend the Age for its skill in soothing its friends with the practical application of the doctrine that misery loves company, and that a general disappointment is so much a mitigation of each one's grief as to turn the whole into a sort of joyous gratification that matters are, by comparison, no worse.

The Age, by this course, makes this out to be the era of general gratification.

The Pilsbury men are gratified that they have defeated Morrill. The Morrill men are gratified that they have defeated Pilsbury.—The Maine Law men are gratified that they have defeated the candidate opposed to that law. The Whigs are gratified that they have the administration of the State. The coalitionists are gratified that they succeeded in securing a majority of the Senate and House against the Wildcats. The Wildcats are gratified that they defeated the Coalitionists who desired the election of Morrill. Well, this general and particular gratification must be very pleasant and refreshing as something new in political matters in Maine. There is no sort of trouble anywhere on the part of any body, except as to the future steps which are to be taken, but what those are to be is somewhat involved in obscurity. Even the Age has not yet undertaken to scan the future.

☞ Hon. Israel Washburn, Jr., advocated in the House of Representatives an appropriation of $50,000 to construct an additional appropriation to provide for the erection of suitable structures connecting the Custom House in this city with the two bridges. Mr. Hibbard of New Hampshire, without understanding the matter and without caring to inform himself of the facts in the case opposed the additional appropriation demanded. Mr. Washburn, however with a mastery of facts in the case gave the House clearly to understand that the government had made its own selection of a lot in the bed of the stream between two bridges, for which they paid the sum of $15,000, the first appropriation. The government had procured plans and specifications for a building to cost $60,000.—The old market foundation, the site purchased by the government, needed to be rebuilt, and an appropriation of $15,000 was required for this purpose. A large portion of this money had been expended and the whole absorbed in contracts, and when the building now had be completed it would stand in the centre of the stream, surrounded by water with a passage of from sixty to one hundred feet between the Custom House and the shores and bridges, and no connection whatever with either the shores or bridges. The appropriation of $20,000 was required to form a connection with the bridges without which the building would be of no service. The amendment offered by Mr. Washburn appropriating $.0,000 to complete the Custom House and connect it with the shores, was agreed to by a vote of 73 yeas, and the nays were not counted.

☞ The concert given by Miss Brett, at the City Hall on Tuesday evening was a very graceful affair, and the music such as to win the praises of our best musical critics. The audience was fair, and would have been large had her agents understood better the art of management of concerts. Miss Brett has a charming voice, and has great musical skill and performed her part to the satisfaction of all who listened to her sweet notes. We hope that by and by she may be induced to give another concert here, when sufficient time will be taken to give ample notice and let the people generally understand the treat there is in store for them.

Since the above was written we learn that Miss Brett has been invited by teachers and parents to give a popular and pleasing Concert on Saturday afternoon, for the benefit of the children. This she has made arrangements to do, and has fixed the price of admission of children and their parents and teachers at only ten cents each.

Thirty-four Gamblers Arrested.

The Boston Police made a descent—a la Lackey—upon two houses, Saturday night, when *thirty-four* gamblers were caught, all engaged in their avocation. The first descent was on the Parker House, Avery street by Mr. [illegible] and so quietly did Deputy Chief of Police Eaton and his twenty-four companions rush on their operations, that the gamblers were taken by surprise—all at the gaming tables, intently shaking props. Thirteen were captured before they could make their escape, but it was useless. The second descent was upon the "Oriental Saloon," on Washington street, near Eliot. So rapid and noiseless were the movements of the police at this place, that every gambler was also nabbed—*twenty-one* in number.

☞ The Supreme Judicial Court in session in this city have for several days been engaged in the trial of various causes relating to the difficulties last year in seizing liquors at Prohibition on board one of the Steamers. A verdict of $25.00 damages was given against one of the gentlemen belonging to Frankfort who were engaged in the prosecution of the liquor cases.

Mr. Chase obtained a verdict of $87.50 for injuries received in an affray on board the steamer, during the seizure of the liquor.

The oral cases were dismissed.

Russia and Turkey.

As was stated in the telegraphic summary no reply has been received from the Emperor Nicholas, to the note of the Vienna conference, and there was no reason to believe that the reply would be favorable. On the contrary, all the reports from St. Petersburg are of a character anything but peaceable. A Paris letter of the 18th, says:

"Advices have received here from St. Petersburg of the 12th of January, which describe the position of affairs as affording little hope for the maintenance of peace. The Emperor is described by those who have an opportunity of observing in moments, living in a state of religious exaltation regarding himself as the chosen instrument under the hand of God, to drive the Moslem from Europe, and only regretting that he should have allowed so many years to pass by without fulfilling his destiny.

The populace at St. Petersburg have worked themselves up to the highest pitch of fanaticism, cheering the Emperor whenever he appears in public with the wildest enthusiasm, and denouncing as traitors all who dare to speak of peace.

The only minister who is supposed to advocate a peaceful course is Count Nesselrode, and he has entirely lost his influence with his imperial master. Count Orloff, on the other hand, who is the Emperor's dearest friend, is eager for war.

It is stated that despatches were received here last night from Vienna, with intelligence that there is no chance whatever of the Emperor Nicholas accepting any propositions of arrangement such as those recently made to him; and, in fact, that sufficient is known to leave very little doubt of an absolute refusal."

A Berlin despatch of the 17th mentions the receipt of advices from St. Petersburg of the same date as above, and says

"M. d'Reiset had arrived with the French categorical ultimatum. It was presented simultaneously with the English note of the same character, which Sir Hamilton Seymour had received some days previously.

The Council of Ministers was in deliberation on these notes, but had not determined on their answer.

There is still little doubt that the entry of the fleets into the Black Sea would be regarded as a hostile act by the Emperor of Russia, and the state of public feeling manifested great irritation against France and England."

As another sign of the times," it is stated that the Court Gazette of St. Petersburgh has published a virulent article against England.

The German Journal of Frankfort of the 14th states that military preparations continue in Poland on the greatest scale. The army of reserve is being mobilized.

☞ The lecture delivered at the City Hall on Monday evening, by Charles Lowell, Esq., of Ellsworth, on the subject of True Greatness of Soul, was well attended by our citizens.

On Friday (to-morrow) evening, Mr. Lowell will deliver his second and last lecture of the course on the subject of "Sympathy or no Sympathy," on which occasion we have no doubt there will be a full attendance and great satisfaction.

☞ Our old friend, Dr. Curtis of New York city, has, we are happy to learn, succeeded in the preparation of a new medicine which is highly spoken of for its effective healing qualities. It is done up in exceedingly neat packages and seems destined to have a great run in the country. It is advertised in another column by S. E. Perkins, under the name of "Dr Curtis's Hygeana, Inhaling Hygean Vapor and Cherry Syrup."

☞ The Young Ladies of the First Parish, who have for a long time been diligently plying their needles in making fancy articles for a public sale, in order to increase the Library of the Sunday School connected with that Parish, propose holding a Grand Levee and Sale at the City Hall on St. Valentine's evening next, Tuesday. They intend to furnish a rare entertainment to their friends.

☞ The Bath Mirror states that a man by the name of William Cunningham, of Sheepscot Bridge, was killed on Thursday of last week, by a sled running over his body. Proceeding down a hill sled of the oxen became unyoked, and endeavoring to stop the, team Mr. C. fell and the sled passed over him, killing him instantly. Mr. C. leaves a wife and four children.

☞ During the year 1853 Maine has built one hundred and seventy thousand tons of shipping, an aggregate greater than the future amount of tonnage built in the United States in any one year prior to 1846. The number of vessels built; more than equals one each day, excepting Sundays.

☞ The Lewiston Touchstone, "Old Dr. Young's" paper, says that Hon. Charles Lowell of Ellsworth, and Rev. Chas. Rockwell of Castine will deliver a lecture in that town on the anniversary of the Lewiston Falls Antiquarian Society

☞ The Mercury of last evening states that the steamer Ocean started from Frankfort on Tuesday morning, but became fast in the ice half way between Frankfort and Buckspert, where she remained yesterday. A change of weather will release her.

☞ Two desertions from the troops stationed on Governor's Island near New York city, were taken from a raft in the river, on Wednesday night, nearly dead with cold. The raft was not quite buoyant enough to bear them, and they sunk two or three feet in the water.—The next morning they were returned.

Hon. Henry A. Wise has written a long letter to the Richmond Enquirer, on the rights of American citizens in foreign countries in respect to religious faith and worship.

The Nebraska Question occupies the attention of the New York journals, to the exclusion of almost everything else. The *Tribune* calls the Bill, as presented by Senator Douglas, an astounding *farce* of the meanest character, and reiterates its belief,—

"That it is simply a movement to save Mr. Pierce with the ultra pro-slavery men of his party, and to give him and Mr. Douglas some political capital to begin the next Presidential Campaign with. No other possible motive can be assigned for it. The pretense that it is to carry out the doctrines of the compromise of 1850, is too shallow and transparent to deceive any man who has a tolerable full of brains."

The adherents of that compromise have never before surrendered such a thing, and to pretend, it is now, they do, is not a contemptuous assault upon the intelligence of the public mind."

The Nebraska Bill. The Washington correspondent of the N. Y. Express telegraphs as follows on Sunday:

"The opponents of the Nebraska bill have made up their minds that it will pass both Houses, to a certainty. It is openly advocated as an admin istration measure, and as such the whole machinery of the Federal Government, now at work to help it, is considered too powerfull not to succeed. The opposition, however, will make a desperate resistance, come what may.

It has been determined in the 'Palace,' I hear, to endorse all as orthodox Democrats—no matter whether Hard or Soft, who come up to support the bill.

Political death is to be the portion of all who oppose it at Washington, or who don't back it up elsewhere.

Nearly all the Nothern Senators are opposed to the bill at present, but there will be some waving in' soon.

Clayton of Delaware, says he will not vote for it.

Benton says he is going to make a 'dead set' upon it, if they will only give him a chance.'

The friends of the bill are determined to push it through as early as possible, and as quietly as they can. What they particularly don't want, is agitation and delay. A vote is expected early in the week."

Boston Industrial Home. An effort is making to establish an institution for the relief of the poor and unfortunate, the outcast and degraded among us. It is proposed to employ missionaries or agents to visit the courts and prisons, the retreats of poverty or the haunts of crime, and repeat, if possible, the poor and destitute, and especially children, from the temptations which surround them, and furnish them a home where they can be educated, and put to some useful employment. It is also proposed to establish a Penny Savings Bank in connection with the institution, by which the small sums often obtained by children, can be preserved for their use and benefit. Messrs. J. R. S. Van Vleet and F. L. Capen are devoted to this noble enterprise. May success attend them in their effort at doing good.—*Boston Mail*

Emancipated Slaves.—Thirty-four negroes, emancipated by the will of William M. Colgin, of Taylor county, Ky., who died about sixteen months since, passed through the city yesterday, on their way to Shelby county where this State, where the executors of Mr. Colgin have purchased a home for them. By the will of their master they were given $4000 in money, and horses, wagons, farming utensils, &c., sufficient to give them a fair start. They travel in their own wagons. As they passed through the city these appearance attracted a great deal of attention.—*Cincinnati Gazette, 3d.*

A Female Senator.—The Washington correspondent of the Baltimore Sun says that there is now before Congress a petition from Mrs. Elizabeth G. Smith of Missouri, who, in 1848, under the assumed name of "Ben Newman," volunteered in the Mexican war, where she served faithfully for ten months, when her sex was discovered, and she was discharged from the service. "Ben" had since married, and now applies for her pay and bounty and, As the law applies to soldiers and not to men, this female soldier may be successful.

Impressions at First Sight.—This subject at the supper table, was getting "talked over," when the lady who presided "over the cups and tea," said that she "always formed an idea of a person at first sight: and that idea, she found, was generally a correct one."

"Mamma," said her youngest son, in a shrill voice that attracted the attention of all present.

"Well, my dear," said the fond mother, "what do you want?"

"I want to know," said young America, "what you thought when you first saw me."

Witness Lacking.—Have I any reason to doubt that the bird which chirrups in my evening walk, as the decreed to be the minister to my happiness, is also conscious that I enjoy his attentions, and that his notes and his song are not in vain. If these decreed to complain, he is probably not ignorant of his uses, and knows my duties as he does his own. Alas! if this be true, what thousand witnesses exist against us, whom we have murdered, who can testify in our improvidence, our hardness of heart, our profligacy and wantonness—our selfish enjoyment of the blessing, without making the acknowledgment—our though less indifference to the humble servant who has served without fame, and has perished without reward.—Sirgeon.

We see by the papers that Mrs. Prayer, of Sioux county, Ohio, has liberally presented her husband with six children within a year—twice three! Two of the last ones died.

Remonstrances against the extension of slavery over the free territory of Nebraska in violation of the Compromise of 1820 may be heard at the bookstores. Let every one oppose: to so great a wrong lose no time in affixing his name.

The ordinary employment of avarice, is the mark of a petty mind; and it almost always happens that he who uses it to cover himself in one place, uncovers himself in another.

Contentment lies within a man in the heart, and the way to be comfortable is, not by having our barns filled, but our minds quiet. The contented man, with Seneca, is the happy man.

XXXIId CONGRESS.

WASHINGTON, February 6.

SENATE.

Mr Sumner, in the Senate, presented the petition of the New York Geographical Society, asking for the establishment of a common international standard of weights and measures, and also for a common meridian line.

A bill for the relief of Elizabeth Smith, who enlisted as a soldier in the Missouri regiment, and served eight months in the Mexican war, was passed.

Mr Shields, from the Joint Committee on the wreck of the steamship San Francisco, made a report, relating the facts of the disaster, and submitting resolutions requesting the President to have three gold medals prepared to be presented to the captains of the Three Sails, Kilby and Antarctic, respectively; also, providing that a sum not exceeding $100,000, be appropriated to the officers and crews of the three vessels.

Mr Gwin objected to the passage of the resolutions, and said he would hereafter offer a minority report.

The Nebraska bill was then taken up, when Mr Wade of Ohio, made a strong and spirited speech in opposition, speaking until the adjournment.

HOUSE.

A memorial was received this morning from Governor Davis, of Oregon, asking additional appropriations for the expenses of the Rogues war in that Territory prior to its organization.

A resolution was passed, calling for the official correspondence between Humphrey Marshall, our late Commissioner to China, and the State Department.

Several bills were reported. Among them, one for amending all existing contracts for carrying the ocean mails, and purchasing the steamers of the various lines; also for making new contracts, by public advertisement, &c.; and another providing a semi-monthly mail steamer between San Francisco and China. Both referred to the Committee of the Whole.

A bill was passed, granting to the St. Louis and the Iron Mountain Railroad Co. the right of way through the Jefferson barrack grounds.

After the transaction of other unimportant business, the House adjourned.

A telescope, which is to cost $1800, has been ordered for Amherst College. It is to be the gift of Rufus Bullock, of Royalston, and to be manufactured by Alvin Clark of Cambridge.

The Boston editors are about to hold a convention for the consideration of matters pertaining to their profession.

Communication from Benjamin Franklin.—Among the good things said and read at the editorial dinner in Springfield on the 17th, as recorded in the Springfield Republican, was the following:—

A letter was read by Dr. Holland the following letter from Benjamin Franklin, who was among those necessarily absent:

Telegraph Office, the Seventh sphere, Eighteen hundred and fifty-fourth year, (For we rhyme in our very latest up here,) Of the first month the 17th day, (The anniversary by the way, Of your humble servant's birth, it may.)

Gentlemen, Editors:

Free for a day from your cares and your scoldings,
Free from the cleaners, the pan and the hypo,
Friends yes brother—an old-time type,—
On this bright anniversary,
In a style rather cursory,
(And in case my verse-ery,)
To write you a line from the spirit-land nursery.

You are all asleep to the signs of the times;
Dead as a hammer—dead as old Grimes,
Seated around this table to day,
Catch ye not the gleams of a milder way?
Something soul eonial?
Something perennial?
Something of promise upspringing within you all?
There sits a neighbor you charged with sheep-stealing,
(Or something so bad) but in cordial feeling,
Without any "ardent" your ardor to mellow,
You are blessing him now for a capital fellow,
And there at your elbow or sitting before ye,
Is a man (if we credit your brotherly story,)
Who the shabbiest, meanest, political knave is;
Who to Falsehood and Party the pitiful slave is;
And you've helped him, for hours, to your graces and graviss!
The man who indited those blushing leaders,
Whose paragraphs ever were discord-breeders,
And the poor little chaps
Who received the raps
Sit side by side—good friends and good feeders.

Seated around this table to day,
Catch ye not gleams of a milder sway,
Something millennial,
Something perennial,
Something of promise upspringing within you all?

Thanks, my kind friends, for the honor you do me,
In coming together this day of my birth;
Thanks for all compliments paid unto me,
And my poor labors subjected on earth!
But worship me never, nor follow my track;
Leave my name to myself and my books on your shelves;
My genius you have not—your genius I lack;
So be better than Franklin—be noble Yourselves!

In the Ultima Thule)
Your's very truly,

Benjamin Franklin.

A Wonderful Discovery has recently been made by Dr. Curtis, of this city, in the treatment of Consumption, Asthma, and all diseases of the lungs. We refer to "Dr. Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup." With this new method Dr. C. has restored many afflicted ones to perfect health, as our columns of which, he has innumerable certificates. Speaking of the treatment, a physician remarks:—It is evident that inhaling—constantly depositing its agreeable vapor, the medicinal properties must come in direct contact with the whole of the aerial cavity of the lungs, and thus escape the many and varied change produced upon them when introduced into the stomach, and subjected to the process of digestion. The Hygeana is for sale at all the druggists throughout the country.—[From the New York Dutchman of January 14th.

"The Glory of Man and the Graceful Ornament of Woman."

☞ What is there more glorious in nature beautiful than to see a rich, luxuriant head of hair on either man or woman? And when those rich tresses on woman begin to decay by disease, how important that we have some preventive or cure! There are a thousand different preparations brought into use, purporting to prevent hair from falling off, or causing a new growth when the head has become bald; but all of little or no use, and very often injuring the diseased scalp more than doing them good. But there is an article which has recently been discovered in New York, which WILL prevent hair from falling out, and a gentleman is to produce a good growth of Hair on heads that have become bald. We have one case in Boston often of very lady who has used it and who is willing to certify to the truth of the above. And to induce people to try it, the Wholesale Agent of Bangor offers for a reasonable time to furnish a good head of hair on any one who will try it thoroughly, in three months time, for no charge for the article. Now, come one, come all, it costs you nothing to try it! The preparation is called HURD'S HAIR RESTORER. Read the following certificate from a gentleman not known in this city, as well as New York:

New York, Dec. 2, 1853.

Mr. Hurd—Dear Sir—I have been bald for the past five years, and as my father's and grandfather's family were bald at maturity age, it was considered hereditary, and thought impossible to produce new hair on my beard, and indeed every thing failed, until I was induced to use your Hair Restorer. I commenced using it about six weeks ago, and where my head was then bald it is now covered with a vigorous growth of new hair; and does no doubt it will produce just as any bald head.

Yours truly,
C. FARAND,
Daguerreotypist, 507 Broadway.

Have you such a thing as gout?
Have you cause to madly shout?
Have you on the railroad spent?
Have you "smashed" and broke your head?
Have you itch, defying skill?
Have you pain that can't be killed?
Have you aches in tooth or ear?
Have your pains that feel so queer?
Have you bruises of any kind?
Have they galls or broken wind?
Have they ring bone—hard to cure?
Have they big head to endure?
Have they scratches or cracked heel;
Have they chest, that blood reveal
Have they spavin—worse than all?
Have they? if have you? List! we call—
Have you tried the Doctors Stuff—
Have you—till you've got enough

MEDICATED INHALATION.

A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr. CURTIS, for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhalation. Dr. CURTIS'S HYGEANA, or INHALING HYGEAN VAPOR and CHERRY SYRUP, has accomplished the most wonderful cures of Asthma and Consumption in the city of New York and vicinity for a few months past, ever known to man. It is producing an impression so deadness of the Lungs never before witnessed by the medical profession. [See certificates in hands of Agents.]

The Inhaler is worn on the breast, under the linen, without the least inconvenience, the heat of the body being sufficient to evaporate the fluid, supplying the lungs constantly with a healing and agreeable vapor, passing into all the air-cells and passages of the lungs; that cannot possibly be reached by any other medicine. Here is a case of

ASTHMA CURED.

BROOKLYN, N. Y., Dec. 10, 1853.

For about eight years I have been severely afflicted with the Asthma: for the last two years I have suffered beyond all my powers of describing; breath at a time I have not been able to sleep in a bed, getting what rest I could sitting in my chair. My difficulty of breathing, and my sufferings, were so great at times, that for hours together my friends expected each hour would be my last. During the past six years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief. At length I had the good fortune to procure Dr. Curtis's Hygeana or Inhaling Hygean Vapor and Cherry Syrup. At the time I first established it, I was suffering under one of my most violent attacks, and was in great distress, almost suffocating for want of breath. In less than ten minutes from the time I applied the Inhaler to my stomach, and took a teaspoonful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfortable night. I have since continued it with the greatest possible benefit and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from. My advice to the sufferers is to try it.

MARGARET EASTON.

CONSUMPTION CURED.

NEW YORK Dec. 27th, 1853.

I came to New York in the ship Telegraph; my native place is St John, New Brunswick; when I reached this city my health was very poor; had a bad cough, raised a good deal of matter, which was frequently mixed with blood; had pain in my left side, and was very weak and emaciated. My friends and physicians pronounced my case Consumption, and beyond the reach of medicine. I accidentally heard of Dr. Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup, and obtained a package, which I verily believe was the means of saving my life. Soon after wearing the Inhaler I found it relieved the pressure on my lungs, and after a while the disease made its appearance upon the surface and the Inhaler. I took the Cherry Syrup as directed, and continued to do so, my cough gradually growing better, until entirely left me, and I now consider myself cured. I still wear the Inhaler, as the use of it is rather pleasant, and believing it strengthening and purifying to the lungs, I feel unwilling at present to dispense with it. JOHN WOOD.

HOT CORN.

Opinions of the Religious press.

HENRY WARD BEECHER, in the New York Independent, says—"Let it speed—May its numbers be as great as the leaves in summer. May thousands sit down under its shadow with delight, and rise up refreshed and made kinder and better men. And may Solon Robinson live to write a hundred books more such, can better than the other."

"The N. Y. Evangelist, a leading Presbyterian paper, says of these stories—"They evince a dramatic skill worthy of Dickens, and powerfully speak in behalf of the poor, victims of a down-trodden, on grounds which sound Christian morality and feeling cannot but approve of. Any thing more touching than The Little Hot Corn Girl, or indeed than most of these transcripts from the terrible realities of life, we have seldom encountered."

From the Methodist Protestant, Baltimore, Md. "No man can read it who has a spark of philanthropy in his bosom without feeling a strong desire to do something for the poor and wretched, to look with more compassionate glance upon the outcasts from society, and especially to seek to remove from the atmosphere of vice, those helpless and innocent children who are born in sin and nourished in iniquity."

From the Religious Recorder, Syracuse, N Y—"Let the volume be read."

From the Religious Herald, Hartford, Conn.—"A great and good work will the circulation of this book effect."

CITY OF BANGOR.

An Ordinance defining and establishing the boundaries of Wards number One, Five, Six and Seven.

Sec 1. Be it ordained, by the Mayor, Aldermen and Common Council of the City of Bangor, in City Council assembled,

That Wards number One, Five, Six and Seven, in said city, be and they are hereby bounded and established as hereinafter described, to wit:

Ward Number One, beginning at the Kenduskeag stream, at the foot of State street; thence up State street to East Summer street—thence down said East Summer street, and on a line in continuation of the centre line thereof, to Penobscot river—thence down said river to the mouth of Kenduskeag stream—thence up said stream to the place of beginning.

Ward Number Five, beginning on the northerly line of the city of Bangor where the Kenduskeag stream crosses the same—thence down said stream to the southerly line of lot number fifty-six; Holland; thence easterly on said line to the Kenduskeag Avenue; thence northerly on said Avenue to the Six Miles Falls Road; thence down said road to the junction of Centre street with said road—thence down Centre street, through the centre of the same, to Exchange street; thence down Exchange street, through East Market Square, to State street; thence up State street to Grove st; thence up Grove and Bannister streets to Milford street; thence west on Milford street to the Rail Road; thence on the Rail Road to the line between Bangor and Orono; thence on said line to Glenburn line; thence on Glenburn line to the place of beginning.

Ward Number Six, beginning at the south-west corner of Granite Block on East Market Square, upon Exchange street to Centre street; thence up Centre street to the Six Miles Falls road; thence up Six Miles Falls Road to Kenduskeag Avenue and down said Avenue to the southerly line of lot number fifty-six, Holland; thence on said line, westerly to the Kenduskeag stream and down said stream to the Kenduskeag Bridge, thence up said bridge to the place of beginning.

Ward Number Seven, beginning at the Penobscot River at the point intersected by the line between the City of Bangor and the town of Veazie; thence down said river to a point which would be intersected by a continuation of the centre line of East Summer street; thence on said line of continuation to and through said East Summer street to State street; down State street to Grove street; up Grove street and Bannister street to Milford street and on Milford street to the Rail Road; up said Rail Road to the line of Orono; thence on said line, southeasterly, to the point intersected by the line between said city and the town of Veazie, and thence southwesterly and southerly, following said line, to the place of beginning.

Sec 2. Be it ordained, that so much of the ordinance, passed April 22, 1851, establishing and defining the boundaries of the seven Wards in said city, as refers to Wards number One, Five, Six and Seven, be and the same is hereby repealed.

FOR SALE:

Bark Gold Hunter,

This Bark was built at Bangor—is four years old and is now discharging at Norfolk from her second voyage from California.

She was built under the eye of her present owner, and no pains or expense, either in material or workmanship, were spared in her construction.

Her dimensions are 107 feet on deck, 25 feet beam, 11 feet hold, and measures 281 tons. She is copper fastened and coppered to the beads in the spring of 1852. She is a good sailer, having made her first passage home from California in 104 days.

Those wishing to purchase a vessel of her class will find it for their interest to examine her where she now lies. JAMES DUNNING

Fashionable Eating House!

Knowles & Johnson,

No. 5 Bowman's Block East End of Kenduskeag Bridge, Bangor.

WE have opened a beautiful establishment for the sale of

Fruit, Confectionery & Pastry,

and have several apartments and well finished rooms fitted up with Marble Tables, for the purpose of furnishing Oysters, and also for Ladies and gentlemen, a nice dinner in the shape of a Luncheon, or a regular and substantial Meal, at any hour of the day and at a moment's notice.

The entrance to the Ladies' Saloon is by the stairway entrance to the Mercantile Association Reading Room.

This is a fast age, and gentlemen visiting the city with their wives do not like to long, tedious waiting for a standard formal dinner under the ponderous machinery of a hotel, and our plan is to give them an elegant meal in our Saloon, without the loss of time, and at about half the hotel prices. A gentleman in a hurry, a gentleman belated or distracted by a stormy day, can pop in, get a nice meal without trouble, and with little loss of time.

We have made the beginning in one of the most convenient and popular arrangements suited to the times, and we intend to keep up its respectability and usefulness.

OYSTERS served in all the various styles.

Pies, Pastry, Fruits, Preserved Nuts, Apples, Oranges, Hot Tea, Hot Coffee.

Families and Parties served with all varieties of the above, in any quantity, and at reasonable prices.

Please to call in and try our establishment.

CEMENT.

BROKEN China, Glass, Earthen Ware, and Fancy Articles of every description, repaired and mended so as to make it as strong as before broken, without injuring its appearance.

This Cement, which has been proved to be of great strength, will be found particularly useful in every family; the simple manner of its application is alone a recommendation. The adhesive property which it contains is so wonderful that many things will rather break in a fresh place than where they have been mended with it. The variety of purposes for which it may be used are so numerous that it would be difficult to recite them. Its success in mending Glass, China, &c., is extraordinary, an ordinary degree of heat affecting it, and as the joints are scarcely perceptible, articles of this kind may be made useful for years, which otherwise would have been cast away.

THE GREATEST

MEDICAL DISCOVERY OF THE AGE!

MR KENNEDY of Roxbury, has discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR, from the worst scrofula down to a common Pimple—He has tried it in over eleven hundred cases and never failed except in two cases (both thunder humor). He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles warranted to cure the worst case of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the very worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing on the pastures and along old stone walls, should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands, hums nor haws about it, suiting some cases but not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old, to old people of sixty. I have seen poor puny, wormy looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to a sick headache one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary when that feeling is gone you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

The Boston Journal.

Published Daily, Semi-Weekly, and Weekly.

TERMS.

Daily, in advance, ... Six Dollars a year. Single Copies .... Two cents. Semi-Weekly .... Four Dollars a year. Weekly .... Two [illegible] Journal for California .... Six cents per copy.

The proprietors of the BOSTON JOURNAL, some three years since, adopted the low price cash plan in the circulation of their paper, and have met with a success beyond their anticipations. Convinced that this course is the most profitable to themselves, their readers, and their advertising friends, they are determined to adhere to the system, and although the expense of publishing a newspaper have increased enormously within a few years, the subscription and cash prices of the Daily, Semi-Weekly, Weekly, and California Journal, will remain the same, which independent of money, time or labor will be spared to keep the Journal in advance of all its contemporaries in every point which goes to make up a live Newspaper of the present day.

THE DAILY JOURNAL,

Although furnished at the low rate of TWO CENTS a copy, contains MORE READING MATTER than any other daily paper in Boston. It is published

Morning and Evening,

and the editions issued so as to contain the VERY LATEST NEWS received by the Mails and Telegraph up to the moment of publication. It is the determination of its proprietors to make it emphatically and in every sense of the word,

A NEWSPAPER!

and as such it will report and record the doings of all parties and sects. It will give full and complete reports of the state of the Markets, a full and accurate Shipping List, doings in the Stock Exchange and Money Articles from a competent source, full reports of the debates in Congress, the reports of Lectures of interest, full and complete accounts of Public Meetings, with a verbatim reports of the speeches, when the occasion requires, &c. &c. Indeed, the readers of the Daily Journal may be sure of finding a record of everything of general interest which transpires either at home or abroad. By arrangements made to establish EXTENSIVE CORRESPONDENCE, and by a liberal use of the

Magnetic Telegraph,

the Journal will at all times be in possession of the latest News, and by the publication of a complete paper both MORNING AND EVENING, the proprietors are enabled to send by

"Every Mail and Express"

which leaves the city during the day, thus furnishing the news hours and days in advance of [illegible] from 12 to 24 hours in advance of those papers which print only one edition daily. The Journal is printed on Hoe's CELEBRATED FOUR CYLINDER FAST PRESSES, capable of printing TEN THOUSAND AN HOUR, and we are thus enabled to run the press until the latest moment, and at the same time supply the demand, however large.

As some evidence of the success which has attended the publication of the Journal, the proprietors would state that its circulation is now at the present time TEN TIMES AS LARGE as in 1848—and more than SIX TIMES AS LARGE as in 1848—period of ten and five years—and that its present circulation is larger than at any time during the last five years. Its present circulation is LARGER BY THOUSANDS THAN ANY SUBSCRIPTION or TWO CENT PAPER PUBLISHED IN BOSTON OR NEW ENGLAND!

The Daily Journal is sent to country subscribers at the rates mentioned above, for any length of time the subscriber may wish. It is delivered by faithful carriers in all parts of Boston and adjoining cities, both morning and evening, and is for sale at the Periodical Depots and in all of the large towns and cities on the lines of the Railroads throughout New England.

TO ADVERTISERS.

Advertisements are inserted in this paper, in neat type, set up in a uniform style, and arranged under appropriate heads, so as to attract the attention of the readers. The great value of the Journal as an advertising medium may be inferred from the fact that ALL ADVERTISEMENTS appear in both MORNING and EVENING papers without any EXTRA CHARGE, thus securing to advertisers the benefit of two papers, at but one price.

Largest Circulation

of any subscription paper in New England. Advertise in the Weekly, Semi-Weekly, or California Journal, without subject to an additional charge for each paper.

THE SEMI-WEEKLY JOURNAL

Is published Tuesday and Friday mornings at Four Dollars a year in advance. It contains all the reading and business matter of the Daily for three days, and is valuable for country circulation.

THE WEEKLY JOURNAL

Is made up expressly for country circulation, and contains a vast amount of miscellaneous and news matter, reports of Lectures, meetings, &c. It is published every Thursday morning, at Two Dollars a year in advance, handsomely printed on good paper, with fair type. As

A FAMILY NEWSPAPER

it has enjoyed an enviable reputation during a long series of years. Its circulation throughout New England is very large and is constantly increasing.

THE JOURNAL FOR CALIFORNIA

Is made up prior to the sailing of each mail steamer, especially for circulation in California, and is a welcome visitor to the friends who have left their homes in search of fortune in the Golden State. It is sent by mail, or sold at the publication office, at six cents a copy.

All orders for either of the above papers should be accompanied by the cash, and addressed to the publishers,

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS WITH U.S. PATENT OFFICE, WASHINGTON.

No. 22 State Street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The subscriber (late Agent of the U S Patent Office, under the Act of 1837) determined to present advantages, in applying for patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him THIRTY DOLLARS (instead of twenty, as of old by others) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at Washington.

R. H. EDDY, Solicitor of Patents.

During the time I occupied the Office of Commissioner of Patents R. H. Eddy Esq. of Boston did business at the Patent Office as Solicitor of Patents. There were few, if any, persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE, Late Commissioner of Patents.

TESTIMONIALS.

The following certificate from Dr John C Warren of Boston was given 17 years since, but will not [illegible].

Boston, Jan 6 1853.

Having had occasion to observe that the persons afflicted with hernia have suffered much from the want of skilful workmen in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr J F Foster to supply the deficiency occasioned by the death of Mr Beath. After some months of observation of his work I am satisfied that Mr Foster is well acquainted with the various kinds of trusses, and in the practice of adapting them to the variety of cases which occur. I feel called upon to recommend him to my professional brethren and to the public as a person well fitted to supply their wants in regard to these important articles.

JOHN C. WARREN M D.

The undersigned take great pleasure in recommending to the notice of the public and to all afflicted with Hernia, Mr James Frederick Foster, as a skilful and competent person in the manufacture and fitting of Trusses. We have employed him (some of us over twenty years) and therefore speak from personal knowledge of his abilities. His early advantages and long experience in the business and the large number of individuals who have received relief through his skill render him, in our opinion, equal, if not superior, to any other maker of the article. His father, Dan Foster, of Charlestown, was master of the Foster house in that town for upwards of twenty four years, during which period Mr Foster availed himself of the opportunity and made applications of Trusses to a great variety of cases with great care, some of which were of a very complicated and distressing character.

It is well known to all who have occasion to wear a Truss, that its great excellence consists in its adaptation to the body at the same time relieving the patient. Any and every mechanic may make a Truss, but none but a skilful practitioner can apply it in such a manner as to be effectual and effect those radically cure the complaint.

Our experience has convinced us that Mr. Foster has thoroughly attended to his business. The certificates of Dr. J C Warren and other eminent surgeons, which he has shown us, fully sustain the opinion we here express.

AYER'S PILLS.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood, in short any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous even though no serious derangement exists, but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physician is required cannot be enumerated here, but they suggest themselves to the reason of every body, and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine.

THE

Physicians' Sure Relief,

OR,

UNIVERSAL PAIN KILLER,

PREPARED BY A. B. HART, M. D., NEW YORK.

The best article ever discovered for the speedy and effectual cure of Pains of all kinds.

More than one hundred thousand cases of Rheumatism, Paralysis, Chills, Cramps and Spasms, Neuralgia, Colic, Face Ticbot, Chill and Fever, Sprains, Bruises, Burns, Heart-burn, Cholera Morbus, Dysentery, Diarrhea, Sick Headache, Lumbago, Lame Back, &c. &c.,

Have been cured by this preparation within the past year.

20,000 Bottles Sold by one Agent in New York in Six Months

One Agent writes from Western New York— Send me One Hundred Dozen "Sure Relief or Universal Pain Killer" as soon as possible, and all out. It is the most wonderful Pain Killer in the world. It is used by our best Physicians.

Another Agent writes, "Your Pain Killer has cured some of the worst cases of Rheumatism in this place; it is truly a Wonderful Medicine. Please send me two gross more by express."

A patient writes, I have used all the Pain Killers of the day, but find none so worthy the title of Pain Killer as yours. It is all it is recommended to be—a Sure Relief for Pain.

Another writes, "The Physicians' Sure Relief or Pain Killer is the best Medicine in the world for Rheumatism. It has effected a cure upon myself which baffled the skill of our best Physicians." Hundreds of such statements as the above might be adduced—One trial will convince the most skeptical.

Two applications have cured the most severe Rheumatic pains.

One application has cured the most violent Cramp in the limbs.

Thirty drops has relieved pain in the stomach.

Six applications have entirely cured Rheumatism.

Twenty five drops taken every twenty minutes has cured Cramp Spasms, &c.

One application at bed time has cured Sore Throat.

Twenty drops taken every fifteen minutes has cured Billious Cholic.

One application has cured Stitches in the Back.

One drop has often cured the most severe Toothache.

Fifteen drops taken every 15 min or twenty minutes will cure Dysentery and Diarrhea.

Twenty five drops has cured Sick Headache.

Ten drops has often relieved Acid Stomach.

Three applications has cured Lame Side.

Twenty-five drops with an alas-scale Wand on the Stomach.

Ten drops every fifteen minutes will cure Cholera Morbus.

Three applications has cured Lumbago.

Thirty drops daily has cured Gravel and Kidney complaints.

Sudden Colds and hard Coughs can be cured by a few doses, as thousands can testify.

For Kidney complaints the Sure Relief is an excellent remedy taken two or three times a day.

For Spinal difficulties it is invaluable. One teaspoonful will relieve the most violent pain in the Stomach, and restore it to its natural feeling. When taken according to directions, I will speedily and effectually cure Bowel complaints, and any other bowel disease, the Cholera, as has been proved in innumerable cases in New Orleans, St Louis, Cincinnati, and many other large cities in the South and West, where the Diarrhea and Cholera have raged so fatally. Reader, if you are suffering from either of the diseases named above, or from pain from any cause be wise and try this great Relief and you will be well.
